Newsletter and Website Report for the November, 2025 Board Meeting

Website Update:

The website is operating smoothly. I added the tournaments for 2026. To make it easier for people to contact the Unit 142 Board, I added a Contact Form which can be accessed from the menu at the top of every page.

Countdown clocks are now being used to promote events. The countdown is typically displayed at the top of the main page, the results page, and the club directory.

To improve visual appeal, sliders are being used on the main page. See below. The slider occupies the full length of the screen. I am considering reducing the height. Your feedback is welcome. A 2nd slide was added to promote the sectional. The slides automatically rotated every 8 seconds on the homepage, the results page, and the club directory. Sliders provide another way for us to increase the visibility of Unit events on the website.

To support the Free Plays for Students program, a form was added to allow clubs to request reimbursement for free plays. Students are required to provide their email and consent to receiving emails from the Unit. To date, 18 reimbursement claims have been processed. The students' emails have been added to the Unit's Student mailing list which we can use to send targeted emails to students.

Newsletter Update:

The open rates of Unit newsletter is above average for a member organization (typically 40-60%). The click thru rate which reflects interest in the articles was at the top of what a member organization would normally expect (5-10%). See below for the healthy metrics of the 3 most recent newsletters.

- The Fall Sectional newsletter
Open rate 48%, click thru rate 11%
- The Pittsburgh Regional results newsletter
Open rate 54%, click thru rate 13%
- The Pittsburgh Regional promotion newsletter
Open rate 61%, click thru rate 11%

The next newsletter will be published Friday, November 21st. A request for articles was sent on November 1st. I'm hoping we will have some articles, pictures, and/or interviews from the [National Gifted Conference](#) which runs from November 13-16 for teachers of gifted students. Patty Tucker's [Jump Start Bridge](#) organization is running a booth at the conference to encourage teachers of gifted students to teach bridge to their students.

Newcomers are typically interested in articles relating to beginner classes and I/N events. The Free Play for Students program has captured 11 I/N emails. The ACBL's Sapphire program is tracking 40 new players/students. See the list at the end of this report.

The Unit is now positioned to send a newsletter to students and/or new players featuring classes and I/N events as directed by the Education Chair and the I/N chair.
