Games & Learning for All Levels

Easy Bridge Game

Our weekly Easy Bridge game helps new players and returning players quickly enjoy the best parts of bridge. the world's best social mind game.

The Easy Bridge game begins with a brief lesson for newcomers. Then each table plays the same 6 boards. The player with the best hand picks the trump suit (or no trump suit) after looking at their partner's distribution. Key learning points are reviewed, and the process continues for 2 more 6 board rounds.

Players quickly learn the mechanics of the game. how to develop and execute a plan to take tricks, how to collaborate with the partner on defense, and how to choose the trump suit. This understanding positions players to add bidding to their repertoire to enjoy the full bridge experience.

Barometer Game

Our weekly Barometer Game is intended for players wanting to improve. Players of all levels are welcome in our sanctioned open game. The Barometer game is very beneficial to beginners and intermediate players.

The Barometer Game begins with a short lesson. Then each table plays the same 6 boards. After the boards are completed, the teacher/director shares the results and reviews key learning points from the hands. The playing and learning process continues for two more 6 board rounds.
